Subject: Complete Amended Notice of Intention to Commence Small Mining Operations, Pisgah Grazing, LLC, BHT Mine, S/005/0003, Cache County, Utah

Dear Mr. Sovereign:

The Division of Oil, Gas and Mining finds your amended Notice of Intention to Commence Small Mining Operations (NOI) complete. You are now permitted to conduct small mining activities as outlined in the amended NOI, provided you have approval from all other appropriate agencies. The approval or acceptance of a complete NOI does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations. Enclosed please find a copy of the approved amendment.

The Division's web page at <http://ogm.utah.gov> under the Minerals Program has a link to the rules under which you are expected to operate and to other information to assist you in complying with program requirements. Thank you for your cooperation. In reply, please refer to file number S/005/0003. If you have questions or concerns regarding this letter, please contact Lynn Kunzler at 801-538-5310 or myself at 801-538-5261.

Sincerely,

Paul B. Baker
Minerals Program Manager

MAR 25 2016

2. Is the project within an incorporated area? () Yes (X) No
If yes, what is the town or city? _____
3. Location and Operations maps must be plotted at a scale to accurately identify landmarks and operations details. All maps must include a north arrow, scale, appropriate labels, and title box including the mine name, township, range and section.
- a. The general location map must be the scale of a USGS 7.5 minute series map or equivalent (1"=2000') and identify new or existing access roads.
- b. The operations map (1"=200' or other scale as determined necessary by the Division) must be labeled and identify:
- The area to be disturbed;
 - The location of any existing or proposed operations including access roads, drill holes, trenches, pits, shafts, cuts, or other planned activities; and
 - Any adjacent previous disturbance for which the operator is not responsible.
- (Contact the Division for a list of consultants and land surveyors for mapping assistance.)
4. The proposed (5 acre or less) disturbed area (including access/haul roads) should be marked ON THE GROUND with metal T-Posts (or with some other marker of equal effectiveness). Markers should be appropriately spaced so that the next marker in either direction is clearly visible with the naked eye.

III. OPERATION PLAN (Rule R647-3-106)

- Type of mining: Surface (X) Underground ()
- Mineral(s) to be mined: sand, gravel, limestone
- Amount of material to be extracted, moved, or proposed to be moved: 1 million tons
- Will any water, liquid chemicals, reagents, or other solutions be used, produced or discharged as part of the mining or milling process? Yes (X) No () If yes, please describe (add extra pages if needed): water, we will be putting mag chloride on the roadways for dust control
- Provide a brief description of the proposed mining operation, and onsite processing facilities (add extra pages if necessary): We will be setting up 40' benches for drill and blast and will also bring in a crushing plant for concrete-asphalt aggregates
- () New Road(s): Length _____ (ft), Width _____ (ft)
- (X) Improved Road(s): Describe improvements that need to be made to existing roads to access the site, including the Length _____ (ft) and Width _____ (ft) of new disturbances.
we are going to asphalt .4 miles of county road and mag chloride the rest of the way in for dust control
- Total project surface acreage to be disturbed: rolling 5 (acres) PLEASE SPECIFY EXACT ACREAGE (this will be used to determine surety bond amount - see #VI).
- Proposed startup date (month, year): 03/2016
- Proposed completion, if known (month, year): _____
